HybridDoc local workbench demo

Privacy
Uploaded files stay on your computer.
No cloud services, model downloads or automatic OCR are used.
Native extraction cannot read scanned image text.

END OF DEMO PAGE ONE

Keyword search

Source passages are exact quotes from the document.
Each passage includes its file name and page number.
Keyword ranking is not answer confidence.
Search uses document words; it does not translate questions.

Formula inspection example: x = y - 2
This native formula is unverified and must be checked visually.
